

Modern topics in gravity (part I)

Report of Contributions

Contribution ID: 1

Type: **not specified**

Modified gravity: from geometry to phenomenology

Monday 23 March 2026 09:00 (45 minutes)

talk by Prof. Dr. Manuel Hohmann (Universität Tartu)

Contribution ID: 2

Type: **not specified**

Black hole hair as probes of new physics

Tuesday 24 March 2026 09:00 (45 minutes)

talk by Prof. Dr. Thomas Sotiriou (University of Nottingham)

Contribution ID: 3

Type: **not specified**

Adventures in strong field gravity

Tuesday 24 March 2026 13:00 (45 minutes)

talk by Prof. Dr. Okada da Silva (University of Illinois, Urbana-Champaign)

Contribution ID: 4

Type: **not specified**

Controlling the Strong and the Infinite in Dynamical Gravity

Wednesday 25 March 2026 09:00 (45 minutes)

talk by Prof. Dr. David Hilditch (University of Lisboa)
